mwav - mwav-<version>.ubuntu<release>.i386.deb

escan – escan-<version>.ubuntu<release>.i386.deb

## II. Installation Steps

Command Line:

```
# dpkg -i mwadmin-<version>-ubuntu<release>.i386.deb
```

```
# dpkg -i mwav-<version>.ubuntu<release>.i386.deb
```

```
# dpkg -i escan-<version>.ubuntu<release>.i386.deb
```

## III. Managing eScan for linux using the Web Administrator

**NOTE: Browser supported is Firefox.**

a) To login to the Web Administration

**https://<eScan\_Server\_IP\_address>:10443**

b) On first time login, "Create Super USER" window will be displayed

Username should be in the EMAIL-ID format i.e. username@domain.com

c) To configure and downloading of eScan AV updates, select **MWAV** in the list of Product-Name drop down box

d) To access the eScan AV settings, select **eScan** in the list of Product-Name drop down box.

#### **IV. Command-Line to run eScan for scanning of viruses and other malwares**

For Command-line help to run eScan for scanning of viruses and other malwares, refer to the manual page

```
# man escan
```
